

FDA FSMA Produce Safety Services

Specializing in FDA Regulatory Matters

EAS Consulting Group

A Certified Group Company

EAS Consulting Group offers Produce Safety regulatory consulting services, both domestic and for produce exported into the U.S.

We understand the complex challenges of designing and implementing agricultural and sanitation controls that prevent the introduction of biological, chemical, and physical hazards. With produce consistently at the top of illness outbreaks in the U.S., improved controls for agriculture, health and sanitation, harvesting, packing and warehousing, and traceability are at the top of FDA priorities and enforcement.

EAS can assist the organization minimize regulatory risk through assessments of grower and harvester Good Agricultural Practices (GAPs), as well as evaluation Good Manufacturing Practices (GMPs) for packing houses, warehouses and transportation. Our experts also facilitate the appropriate use of process claims such as those of the National Organic Safety Board (NOSB) ensuring consumer and regulatory expectations are met.

Contact EAS for assistance with FDA's Produce Safety Rule. We look forward to being your regulatory partner.
