

Food Safety Modernization Act

Specializing in FDA Regulatory Matters

EAS Consulting Group

A Certified Group Company

EAS Consulting Group helps clients stay ahead of FDA regulatory compliance issues. We assist with all aspects of the Food Safety Modernization Act (FSMA) as well as provisions of the Food, Drug, and Cosmetic (FD&C) Act and the Bioterrorism Act. Our experts in toxicology, chemistry, microbiology and FDA regulations enable the development of proactive and actionable solutions for all of your FSMA needs.

Whether you are a grower, supplier, manufacturer, distributor, or importer, EAS develops food safety plans including traceability and Allergen control programs with recognized best in class Good Documentation Practices. We also design Preventive Controls for Human Food (PCHF) and Animal Food (PCAF), keeping your manufacturing, processing, packing and holding operations in compliance with FDA requirements.

If you are an exporter of human or animal food to the U.S., EAS helps you to navigate the Foreign Supplier Verification Program (FSVP) which requires thorough vetting and traceability of all foreign suppliers. We can also act as your company's Qualified Individual.

With 200 independent advisors and consultants, you can trust EAS to provide comprehensive consulting, training and auditing services resulting in safer products and compliant programs. We look forward to being your regulatory partner.
