

# Cosmetic Consulting Services

*Specializing in FDA Regulatory Matters*

## EAS Consulting Group

A Certified Group Company

EAS Consulting Group provides regulatory consulting services to the cosmetic industry. When you need assistance evaluating the safety of your cosmetic formulation, support with the submission of a color additive petition, or expert witness services including due diligence for M&A, look no further than EAS. Our cosmetic team includes FDA compliance experts and toxicologists. We design clinical studies to document ingredient safety and substantiate label claims, and prepare complex reports that demonstrate ingredient safety to federal authorities.

We can help you to determine whether your product is a cosmetic, OTC drug or cosmetic/drug combination, facilitate registration with FDA's Voluntary Cosmetic Registration Program, and conduct manufacturing safety assessments for production and distribution operations, including those of co-packers. When you need FDA regulatory support for your cosmetic products, our expert cosmetic consultants will help your firm maintain FDA compliance.

Choose EAS for:

- ✓ FDA Compliant Labeling
- ✓ Structure-Function Claims
- ✓ Ingredient Safety Evaluations
- ✓ Color Additive Petition
- ✓ Color Certifications
- ✓ GMP Audits
- ✓ Cosmetic/Drug combinations and OTC to Cosmetic Switch
- ✓ Identifying and Mitigating Contaminants
- ✓ Submissions, Registrations and US Agent Assistance
- ✓ Seminars and Training
