

Fundamental Food Strategy Solutions

Specializing in FDA Regulatory Matters

EAS Consulting Group

A Certified Group Company

Meeting Today's Food Safety Challenges, Without Breaking the Budget

As regulatory scrutiny intensifies, food companies must demonstrate compliance not only with U.S. FDA and USDA regulations but also with global certification standards. For many businesses, preparing for audits and maintaining compliance can be resource-intensive.

EAS Consulting Group's reduced-rate services are designed to make expert support more accessible, whether you are a startup pet treat company, livestock feed supplier, or a multinational human food manufacturer.

Key Offerings

- ✓ Onsite and Remote GFSI Certification Gap Assessments (SQF, BRCGS, FSSC 22000, GlobalG.A.P.)
- ✓ Onsite and Remote Third-Party GMP / HACCP Gap Assessments
- ✓ Onsite FDA/FSMA Compliance Assessments
- ✓ Development and Review of FDA-Compliant Food Safety Plans
- ✓ Development and Review of Seafood HACCP Plans

Compliance Confidence from Proven Experts

EAS Consulting Group has supported hundreds of companies across the human and animal food sectors. Our team includes former FDA and USDA officials, GFSI experts, and industry specialists who understand both regulatory requirements and operational realities.

With decades of combined experience, we provide actionable, audit-ready solutions that give you confidence and peace of mind.
